Objective

To work as a Full Stack Developer, contributing with scalable, high-performance solutions focused on user experience.

Professional Summary

Full Stack Developer with expertise in **React.js, TypeScript, Vite, and Node.js**, currently developing and maintaining CifraAds, an affiliate and digital campaign management platform. Experienced in building scalable dashboards, financial systems, and administrative applications, with a strong focus on performance, clean architecture, and user experience. **Skilled in REST API** development and integration, **AWS, Supabase, Git**, and modern front-end technologies, delivering reliable solutions that align technical excellence with business goals.

Professional experience

Front-end Developer (React.js | Node.js)

CifraAds (oct/2024 - today)

- Front-end lead, responsible for application architecture and evolution;
- Development of a SaaS affiliate management platform, with analytical and financial dashboards;
- Building interfaces with React.js, TypeScript, and Tailwind CSS, focusing on performance and scalability;
- State management with Zustand and authentication with JWT;
- Integration with REST APIs using Axios and route organization with React Router;
- Implementation of forms with React Hook Form and Zod and data visualization with Recharts;
- Organization of technical tasks and version control management with Git (branches and PRs);
- Collaboration with the backend in Node.js and participation in product decisions;

Back-end developer

Vigor Imobiliária (Jan/2024 – oct/2024)

- I was responsible for the entire API development process on my own;
- I used AWS for image upload and management, then migrated to Supabase to reduce client costs;
- I deployed the application and managed its version;

- I supervised the front-end and assisted throughout the integration process;
- I was responsible for direct contact with the client.

Formation

Bachelor's degree in Information Systems

Descomplica Faculdade Digital - (oct/2022 - dec/2026)

Fullstack / Backend / Frontend Software Development

Cubos Academy - (jan/2023 - oct/2023)

1187 hours of classes focusing on:

- **Front-end:** HTML, CSS, DOM, JavaScript, TypeScript, React;
- **Back-end:** Node.js, MongoDB, AWS, Express.js, SQL, noSQL;
- **DevOps:** Git, GitHub;
- **Soft-Skills:** Agile Methodologies (Scrum), Communication, Problem Solving, Emotional

Intelligence, Time Management.
