JOÃO VICTOR FAGUNDES

FULL STACK DEVELOPER | REACT.JS, TYPESCRIPT & NODE.JS

jvfagundes329@gmail.com | (55)79 9653-9225
Portfolio: joaovictorfagundes.netlify.app | LinkedIn: linkedin.com/in/joaovictorfagundes | GitHub: github.com/JohnFagundes

PROFESSIONAL SUMMARY

Full Stack Software Developer experienced in building web and mobile applications, with a strong focus on React.js and TypeScript interfaces, Node.js REST APIs, and infrastructure administration. Experienced in evolving SaaS products, building analytics and finance dashboards, developing admin panels, integrating front-end and back-end systems, and maintaining internal applications. Familiar with Git, SQL, MongoDB, AWS, and Supabase, with an emphasis on code quality, performance, scalability, and business needs.

TECHNICAL SKILLS

Front End: React.js, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, Vite, React Router, Zustand, React Hook Form, Zod, Recharts
Back End: Node.js, Express.js, REST APIs, C#, JWT authentication
Databases: SQL, MongoDB, Mongoose, NoSQL
Cloud & Infrastructure: AWS, Supabase, deployment, server administration, local networks
Tools & Practices: Git, GitHub, branching, pull requests, Agile methodologies (Scrum)
Mobile: Flutter

PROFESSIONAL EXPERIENCE

Front-End Developer (React.js | Node.js) | CifraAds | Oct 2024 – Present

- Own the architecture, maintenance, and ongoing development of the front end for a SaaS platform focused on affiliate and campaign management.
- Build analytics and financial dashboards and administrative panels using React.js, TypeScript, and Tailwind CSS.
- Implement state management with Zustand, JWT authentication, and routing with React Router.
- Integrate REST APIs with Axios and build forms using React Hook Form and Zod.
- Create data visualizations with Recharts, with attention to performance, scalability, and user experience.
- Coordinate technical tasks and version control through Git branches and pull requests; collaborate on Node.js back-end improvements and product decisions.

Full Stack Developer | Marcos Contabilidade | Jan 2026 – Sep 2026

- Developed and maintained internal systems and web/mobile applications using C#, Node.js, React, Flutter, and SQL.
- Administered servers and the local network infrastructure used to host internal systems.
- Handled deployments, application maintenance, and internal technical support.
- Diagnosed and resolved issues involving applications, servers, and infrastructure.

Freelance Back-End Developer | Vigor Imobiliária | Jan 2024 – Oct 2024

- Independently developed the application API using Node.js and back-end technologies.
- Implemented image uploads and management with AWS, later migrating to Supabase to reduce the client's operating costs.
- Managed deployments and version control with Git; supported front-end integration with the API.
- Worked directly with the client to clarify requirements and communicate project progress.

EDUCATION

B.S. in Information Systems | Descomplica Digital College | Oct 2022 – Dec 2026
Full Stack Software Development Program (1,187 hours) | Cubos Academy | Jan 2023 – Oct 2023
Coursework: HTML, CSS, DOM, JavaScript, TypeScript, React, Node.js, Express.js, MongoDB, SQL, NoSQL, AWS, Git, GitHub, and Agile methodologies (Scrum).

LANGUAGES

English: Fluent
